## **Background**

The Akerman Medical practice is a GP surgery based on second floor of Akerman Health centre which is purpose built health centre constructed in 2012.

Akerman Medical practice is located in South East Locality of Lambeth Borough close to Oval tube stations and Camberwell New road. Akerman Medical Practice has 4 consulting rooms, 1 treatment room, 1 meeting/ administrative office space and a patient waiting area. There are dental, midwifery, health visitor, sexual health and family planning services available from other providers at the Akerman Health Centre. On-site parking is available for on call doctor and disabled patient in the underground car park via prior arrangement. There is easy access for wheelchairs, lifts and assisted toilet facilities on all floors of the health centre.

In last three year local area has been transformed from an inner city deprived area to young affluent moving into the area in new housing developments. This has transformed the practice population in many ways. We have responded to this challenge and changed on how we deliver care. With telephone triage and online/ email consultations favoured by many of our young working patients.

Akerman Medical Practice has been involved in undergraduate teaching for Yr 1 to Year 5 medical students from Kings undergraduate medical education in the community (KUMEC). And Physicians associate programme from St Georges Medical School.

Akerman Medical practice team are committed to delivering a friendly, welcoming and high standard of medical care to our service users

### **Our Website**

Full details of all the services we offer and for the latest information and updates can be found on our website <https://www.akermanmedicalpractice.com/>

### **Our Aims and Objectives**

1. The provision of good quality primary care services delivered in a clean, suitably equipped and safe environment
2. To act with integrity and confidentiality and ensure robust information governance systems
3. To deliver whole person patient centred holistic care and support to our patients, carers and families
4. Proactive management of long term conditions, persons with learning disabilities, Mental health and other vulnerable groups, from birth through to end of life
5. Efficient use of NHS Resources whilst providing clinically appropriate access to other NHS resources e.g. consultant referrals, diagnostic tests and effective treatment
6. All members of the practice team will have the right skills and training to carry out their duties competently
7. To maintain our motivated and skilled work teams
8. To guide our employees in accordance with diversity and equality
9. To treat all patients and staff with dignity, respect and honesty
10. Patients will be proactively involved in the development and maintenance of good quality services through the patient participation group and patient feedback
11. We will liaise with other agencies and NHS colleagues in an effective and coordinated manner with a patient centred approach
12. Through monitoring and auditing, we will continue to improve our health care

services

13. Maintain high quality care through continuous professional development thereby fostering a learning environment within the practice
14. To be a full and active members of our local GP federation
15. Proactive member of our local CCG
16. Engage in the Primary care transformation agenda for London

**The registered activities and service types have been agreed by Akerman Medical Practice in accordance with CQC guidance.**

CQC regulated activities:

- **Diagnostic and screening procedures** - Specific diagnostic procedures e.g. phlebotomy, microbiology samples are undertaken for analysis off-site. Specific screening programmes such as cervical screening are also undertaken for analysis off-site. Other procedures such as electrocardiograms and spirometry are undertaken on-site with results available on-site.
- **Maternity and midwifery services** - Services are offered and provided in conjunction with community midwives for the assessment, treatment and education of patients in the antenatal period as well as post-delivery.
- **Treatment of disease, disorder or injury** - General practice services for our registered patients and on occasions, patients registered with other GP practices or temporary residents
- **Family planning services** - Provision of all general family planning advice and prescription of oral contraceptive, fitting and removal of IUCD devices and contraceptive implants.
- **Surgical Procedures** - Joint Injections Only
